--------------------	-----------------------

Extracurricular activities

Clubs, sports, band and other non-academic pursuits can be a big part of middle school and they enhance academic learning. There are numerous benefits to participating in extracurricular activities, not the least of which is developing good teamwork skills and discovering a personal passion.

To be eligible for extracurricular activities, students must be 7th and 8th grade age equivalent and be able to represent CCMS in an acceptable manner and not be on the social suspension list. 6th grade students will be eligible to participate in cross country, track and field, and all clubs and activities if they meet the above criteria.

To participate in middle extracurricular activities, a student must be passing all classes and demonstrate good citizenship. If a student is not passing a class (a minimum grade of 60% or above) at the end of each week, and/or has a "U" in citizenship in any class, at the end of each week he/she will become ineligible to participate for one week. For seventh grade, students must have received a passing grade in all classes at the end of their seventh grade year in order for them to participate in extracurricular activities at the beginning of their eighth grade year.
